

ROAD COAT V.O.

Road Coat V.O. is a 100% vegetable oil dust abatement solution that has gained wide spread use for fugitive dust control.

Road Coat V.O. is applied to dry roadbeds. No need for water trucks.

Road Coat V.O. stabilizes roads making them water resistant and reducing mud and chuckholes.

Road Coat V.O. reduces the need for frequent blading. One application normally lasts the summer season.

Road Coat V.O. is formulated to be non-corrosive, unlike other dust suppressants (magnesium chloride or calcium chloride), so it will not harm valuable equipment.

Road Coat V.O. is easily cleaned up with soap and water (any common household dishwashing liquid).
